Case study/Project detailed description	This workshop has as its main goal to instruct the participants in the traditional techniques of silk painting, the most used of which is the utilization of direct decoration by means of geometric motifs. We will also increase the participant’s knowledge about the ways of clothing according to the social position and the customs of that period. The workshop will be

	developed in a 7-hour session that will include a tea break and the showing of the explanatory video of the Foundation.
Outputs	Last year, up to 500 people interested in textile gathered together in 22 towns along the Ruta del Califato (Route of the Caliphate) For the current year, we expect a participation of 600 people in the workshops proposed for the Ruta de Washington Irving (Route of Washington Irving)
